

Technical Data Sheet

Name	Liquid Paraffin
CAS No.	8012-95-1
Properties	This product is a colorless and clear oily liquid; no fluorescence is shown in daylight
Relative Density	0.845 ~ 0.890
Viscosity	Not less than 36 mm ² /s at 40°C
Acidity and Alkalinity	Consumption of 0.01mol/l sodium hydroxide titrant shall not exceed 1.0 ml
Sulfides	Complies with the specifications
Carbonizable Substances	Complies with the specifications
Arsenic Salt	Not more than 0.0002%
Uses	Lubricant, ointment base, etc.
Packaging Specifications	20kg/drum, 170kg/drum
Storage Conditions	Sealed for preservation
