

Technical Data Sheet

Name	Polyethylene Glycol 8000
Properties	This product is a white waxy solid flake or granular powder with a slight characteristic odor.
Freezing Point	55 ~ 62℃
Viscosity	470 ~ 900mm ² /s at 100℃
Average Molecular Weight	7000 ~ 9000
Acidity	4.5 ~ 7.5
Moisture	Not more than 0.8%
Uses	Ointment base, lubricant, etc.
Packing Specification	25kg/drum
Storage Conditions	Sealed and stored in a dry place.
